

GoCrypto

for PrestaShop 1.6.x

- 1** The GoCrypto plug-in is available at https://public.gocrypto.com/webshop_plugins/prestashop_v1.6/gocrypto_prestashop_v1.6_latest.zip

2 Log into the PrestaShop module administration:
Enter your online shop link **https://domain.com/admin** into the online browser. In this, change the **domain.com** string into your domain name and the **admin** string into the name that you have set.

3 Click **Modules and Services** on the left side of the menu.

4 Installation:

- click **Add a new module**,
- click **Select file** and
select the **GoCrypto** plug-in from the list of files.
- Click **Upload this module**.

The plug-in will download automatically.

- 5 Re-click **Modules and Services** and select **Modules & Services**. Select **GoCrypto** from the list and click **Configure**.

Select **GoCrypto** from the list and click **Configure**.

- 6 Enter your **Client ID** (received by e-mail or by post) into the **Client ID** field.

- 7 Enter your **Client Secret** (received by e-mail or by post) into the **Client Secret** field.

The GoCrypto installation into your online shop was successful

You can monitor your transactions at

<https://pos.gocrypto.com/en>.

Enter the **username** and **password**, received
after signing a contract with Eligma Ltd.
