

GoCrypto

for osCommerce version 2.3.x

- 1** The GoCrypto plug-in is available at
https://public.gocrypto.com/webshop_plugins/oscommerce_v2/gocrypto_oscommerce_v2_latest.zip

- 2** Download the files into your online shop folder. The locations of the files are on the following list:

File	Location for downloading
processordergocrypto.php <i>(Located in: \catalog\)</i>	\
gocrypto.php <i>(Located in: \catalog\includes\languages\english\modules\payment\)</i>	\includes\languages\english\modules\payment\
gocrypto.php <i>(Located in: \catalog\includes\modules\payment\)</i>	\includes\modules\payment\

3 Log into your online shop administration:
Enter your online shop link **https://domain.com/admin** into the online browser; in this, change the **domain.com** string into your domain name.

4 Click **Modules > Payment** on the left side of the menu.

5 Installation:

- click **Install Module**,
- select **GoCrypto** from the menu,
- click **Install Module**.

6 Click **Modules > Payment**
on the left side of the menu.

Select **GoCrypto** from the list and click **Edit**.

7 Enter your **Client ID** (received by e-mail or by post) into
the **Client ID** field.

8 Enter your **Client Secret** (received by e-mail or by post)
into the **Client Secret** field.

The GoCrypto installation into your online shop was successful
